# Finishes

---

Total Door offers a wide variety of door finishes that are available in all labels, including 3 hours.

## Primed or Factory Painted

We offer prime painted or custom matched color using a two-part catalyzed polyurethane. Architectural colors are matched in our paint kitchen, then baked on for an extremely durable finish. Polane "T" for interior applications and Polane "S" (greater UV protection) for exterior applications.

## Wood Veneers

Choose from a variety of standard stains, custom stains or clear coat on any commercially available wood veneer species and cut. Our standard stains are shown below on flat cut red oak.

Note: the samples on this screen are not meant to be used for a color match and are representative only. Actual colors will vary. Please contact your local distributor for a true color match!

209-10 Natural
